Supporting Your Child's Education in Ghana

A comprehensive guide for parents to maximize their child's learning with Lesson Teacher's AI-powered educational platform.

 **Tech Bros Africa**

Updated May 2026

A Note from Mr. Demiju, CEO

Dear Parent,

When I built Lesson Teacher, I was thinking of one student — a bright Ghanaian child who wants to learn but cannot always access the right support. Perhaps extra lessons are expensive. Perhaps the school is under-resourced. Perhaps the textbook explanation is not clicking.

Lesson Teacher is our answer. She knows every approved NaCCA textbook from Basic 1 to SHS 3, follows your child's exact school week, and teaches with the patience and warmth of the best teacher you have ever known. She is available at midnight, on a Sunday, on the bus.

But this tool works best when you — the parent — are involved. This guide will show you exactly how.

With respect and conviction,

Mr. Demiju

Part 1: Understanding AI for Your Child

■ What is AI and why does it matter?

Artificial Intelligence (AI) is computer software that can understand language, answer questions, explain concepts, and adapt to each student. **Lesson Teacher is AI** — she reads your child's questions and gives personalised answers, exactly the way a private tutor would.

The world your child will graduate into will be shaped by AI. Understanding it early gives them a massive advantage — and you do not need to be technical to help your child benefit from it.

■ **Key Message:** AI does not replace your child's brain — it sharpens it. Think of it like a calculator for understanding: it helps them get there faster, but they still need to do the thinking.

■ Is it safe for my child?

Yes! Lesson Teacher is designed specifically for Ghanaian students:

- ✓ No adverts or social media links
- ✓ No inappropriate content
- ✓ Stays strictly on NaCCA curriculum (Basic 1 to SHS 3)
- ✓ As safe as a textbook, far more engaging
- ✓ Monitored by parents through Parent Hub

Part 2: The 30-Minute Daily Routine

This is the most powerful thing you can do for your child's education:

Time	Activity	Your Role
■ 0-2 min	Open Lesson Teacher Select subject	Sit with them Ask: "What are you studying today?"
■ 2-15 min	Read and listen to the lesson	Step back — let them read independently
■ 15-22 min	Chat with Lesson Teacher Ask questions	Encourage: "Ask her to explain the part you didn't understand"
👉 ■ 22-28 min	Answer quiz questions	Do NOT give the answer — let them try first
■ 28-30 min	Download notes Review together	Ask: "What was the most interesting thing you learned?"

■ Devices and Data Tips

Works on any device: Android, iPhone, Windows, Mac, tablets

Data usage: Only 5-15MB per lesson (less than a 1-minute video)

Offline mode: Download lesson notes as PDF to read without internet

Network: Works on MTN, Vodafone, AirtelTigo — any data bundle
